A screenshot of a 'Data Calculator' interface. It has a dark background with white text. At the top, it explains: 'Our services are based on the amount of data transmitted. A standard video visitation transmits approximately 1.4 MB for every minute. A standard voice call transmits approximately 0.66 MB for every minute. A standard message uses 0.33 MB. Enter the MB of data you wish to purchase, then click Next.' Below this is the title 'Data Calculator' in green. There are three input fields: 'Voice Minutes' with a value of 30, 'Video Minutes' with a value of 30, and 'Standard Messages' with a value of 45. To the right of these fields, the total is displayed as '76 MB' and '\$22.80'.

6. Click Submit when you are ready to purchase your data.

Inmate Communication

If you receive a call from (888) 984-1903, there is an inmate trying to call you. If you purchased data, you can accept the call. If you haven't, you **cannot** accept the call.

- You can send/read messages by clicking the Mail button.
- You can schedule video visits by clicking Video and then New Schedule. Onsite visits require you to visit the facility, while Remote visits can be joined from anywhere as long as your Wifi connection is strong enough. It is recommended to utilize a computer and **not** use cellular phones for visits due to connection issues.
- Schedules you submit must be approved by facility staff.
- To join a Remote session, you need to login to Cidnet and click the Launch button when your session is scheduled to begin. The Launch button will appear automatically, though you may need to click Refresh.

- Video visits, messages, and phone calls are recorded and monitored. Staff may revoke your ability to communicate if you violate facility guidelines.
- If you want to sell your data back to Cidnet, click the Support button and open a New Request with I would like to sell back my unused data as your request.
